

CWZ Membership Report—November 12, 2020

Membership, the blood life of an organization, still tends to be a problem in the whole organization--- The total of new members in 3 regions for the period of time from October 2019-September 2020 are: CWZ 16, Northern 25, and Long Island 29. I picked those 2 other regions to show an area with few retirees versus an area with likely a lot more retirees. The state total of new members for this time period is 157. However, in this same time period, we lost 939 members due to death. State membership is now only 13046!

2020 Retiree names have been forwarded me by all counties with the exception of Monroe. This has been an exceptional year in attempting to get these names due to pandemic. A big thank you to the county membership chairs for their hard work. Now these retirees must be brought into the fold as well as many other retirees.

BULK MAILING

This facet of our organization appears to be running smoothly. Have had no issues to my knowledge.

NEWSLETTER

A late thank you to all that contributed articles to make a successful newsletter. Everyone was great about getting their materials to me by the deadline.
